*Theme: Stakeholder involvement
leading to continuous environmental performance improvement*

This organisation is an official EMAS Awards 2011 Winner. EMAS is the premium environmental management system. The EMAS Awards praise the relentless efforts on environmental protection of EMAS registered organisations. This organisation has established effective and innovative ways to involve stakeholders in achieving its environmental goals. This pioneering effort illustrates how systematic, innovative solutions can reap benefits for the environment and improve relationships with employees, customers, suppliers and other stakeholders at the same time.
